

# ENGINEERING COACHING

PRESENTED BY ADHYAYAN  
**VGEAR**  
ENGG. I GATE I IES I CRT

*"Integrate your success with us"*

# About Us

We at VGEAR believe that every engineering student should possess a highly rewarding career to the best of his/her potential. That's where we step in to enhance the skills of an engineer, mentor and guide students to shape their career towards success.

Keeping the career of a student at the centre of our vision, VGEAR has built a team of Corporate Professionals, AIR Top 50, Highly experienced and dedicated pool of faculty to tackle Competitive and Job oriented examinations.

## Our Team

**Sanket Shah** is an edupreneur with an aim to Revolutionize quality of education globally and make students “FUTURE READY”

**Austin Fernandes** is an avid marketer with a deep understanding of education industry in India

**Brijesh Mishra** is a technical oriented person who aims towards a great learning experience by enhancing teaching pattern and methodology

“Education is not learning of facts, but the training of mind to think, to learn, to strategise, to apply practically, to move ahead and be the change needed”

Maths 3, Maths 4 - 10 pointer

***and many more..***

# Expect Excellence

Our students learn in a culture where the teachers, students, guest lecturers, industry professionals are co-equal participants of learning & guiding, gaining by imbibing, improving by practicing and excelling by performing process.

Our pedagogy is developed such that students can visualise the running machines; understand how applications work; how will the engine work; how will the structure look, thereby helping them simplify the learning process.
